ZÉLL-V Product Update Notification ZÉLL-V 产品通知

Product 产品 : ZÉLL-V Platinum Plus
Batch No 批号 : UBV0006N
Made in 制造 : New Zealand 新西兰

Dear Valued Customers,

Thank you for your continuous support and love for ZÉLL-V products.

Over the past 20 years, ZÉLL-V has continuously listened to our customers' feedback and spared no effort in ensuring that our products meet your expectations. Because, your satisfaction is our greatest motivation for improvement.

Recently we have received some feedback saying that ZÉLL-V Platinum Plus softgel is a bit large, and suggestions to make the softgel slightly smaller.

You spoke and we listened! We are pleased to announce that ZÉLL-V has improved the ZÉLL-V Platinum Plus softgel to a smaller size while maintaining its original and unique formula.

The new batch of ZÉLL-V Platinum Plus softgel is slightly shorter, rounder and smoother with more moisture on the outer encapsulation, thus making it easier to consume. As the outer encapsulation is relatively more moist, you may find the softgel sticking slightly to the blister pack, which is a totally normal phenomenon.

Please be assured that the ingredients and efficacy remain the same.

We look forward to your continuous support as we strive to provide our customers with products and services of the highest quality. Please do not hesitate to contact our healthcare consultants if you have further enquiries.

We wish you Always 25!
ZÉLL-V

亲爱的 ZÉLL-V 顾客：

首先，感谢您一直以来对 ZÉLL-V 产品的支持与喜爱。这 20 年以来，ZÉLL-V 不断听取顾客的反馈，在产品 & 科技的把关和改良不遗余力！因为，您的满意是我们最大的动力。

近期，我们收到了一些顾客的反馈，称 ZÉLL-V 的胶囊有点偏大，希望我们能够将它缩小。我们经过与厂商磋商，决定在不改变多年来的独特配方、剂量和疗效下，将原本的胶囊换成稍微小一些的胶囊，以方便顾客服用。

因此，您会发现最新一批的羊胎盘素胶囊会比以前的稍微短一些，形状更加圆润，表面也更湿润，更容易吞咽。此外，由于胶囊外层涂层的湿润度增加，您可能会发现胶囊更容易粘在包装上，这是正常的现象。与此同时，产品的成分和质量是依旧保持不变的，请您放心购买。

我们真诚希望您能够理解并继续支持 ZÉLL-V 产品。我们将继续致力于提供您最优质的产品和服务！如需了解更多信息，请随时与我们的保健顾问联系。

衷心感谢您的支持，
ZÉLL-V 团队

PLATINUM PLUS
www.zell-v.com

ZÉLL-V GmbH Switzerland, hereby certifies that ZÉLL-V Platinum Plus is researched and exclusively formulated by Swiss and German medical experts and manufactured in a specialised facility in New Zealand.

ZÉLL-V Platinum Plus softgels manufacturing complies fully with all standards of Good Manufacturing Practice (GMP). The exclusive manufacturing operates to a HACCP (Hazard Analysis and Critical Control Points) quality assurance programme.

The sheep placenta extract in ZÉLL-V Platinum Plus is obtained via bio-filtration technique exclusively researched and developed to isolate and extract the active cellular material, specially selected growth factors and transfer factors. A concentration of 600mg (equivalent to 30,000mg of fresh sheep placenta) of this extract is encapsulated. With this made possible, ZÉLL-V Platinum Plus is highly effective in the cellular rejuvenation process.

ZÉLL-V Platinum Plus is a safe, 100% natural derivative preparation. No side effects or any other possible ill effects are expected when used in the intended way indicated. ZÉLL-V Platinum Plus is carefully prepared, stringently analysed and systematically released under the responsibilities of highly qualified biological, medical, pharmaceutical and nutritional professionals.

With the expanding support of Medical and Wellness laboratories, Aesthetics and Anti-Ageing institutes, as well as Rejuvenation and Regeneration medical facilities of Switzerland, Germany and France, ZÉLL-V Platinum Plus has been verified to combat the most aggressive ageing symptoms.
